PROFESSIONAL SUMMARY

Enthusiastic and dedicated BCA graduate with hands-on experience in full stack web development, including front-end technologies (HTML5, CSS3, JavaScript, React.js) and back-end frameworks (Node.js). Completed a full stack internship building an Employee Management System and an academic computer vision project. Eager to apply technical skills and contribute to dynamic software development teams.

TECHNICAL SKILLS

Front-End:	HTML5, CSS3, JavaScript (ES6+), Responsive Web Design
Back-End:	Node.js
Database:	MySQL.
Tools:	Git, GitHub, VS Code
Concepts:	Full Stack Development, CRUD Operations, Version Control, Open CV.

INTERNSHIP EXPERIENCE

FullStack Developer Intern–Tonyshive Company

FullStack Web Development | Erode

• Built responsive front-end interfaces using HTML5, CSS3, and JavaScript, and integrated them with back-end APIs.

• Gained hands-on experience with front-end .

• Collaborated in a team environment following standard development practices and version control workflows.

• Developed a full-featured Employee Management System with complete CRUD functionality (Create, Read, Update, Delete) for employeerecords.

PROJECTS

Leaf Disease Detection using Canny Edge Algorithm

• Processed and analyzed leaf images to highlight infected areas, enabling early plant disease identification for farmers and researchers.

• Applied computer vision techniques with Python and OpenCV to build a lightweight, efficient detection pipeline.

• Designed and implemented an image processing system to detect diseased regions in crop leaves using the Canny Edge Detection algorithm.

Technologies: Python, OpenCV, Image Processing, Canny Edge Detection

EDUCATION

Bachelor of Computer Applications (BCA)2023-2026

Govindammal Aditanar College for Women, Tiruchendur
CGPA - 8.19

SOFT SKILLS

• Good Communicator	• Team Leader	• Quick Learner	• Active Listener
• Flexible	• Time Management	• Problem Solver	• Detail-Oriented
